I just learned that about this new document ( rec'vd by Region 3 on Monday) – a discussion by FHWA/CORPS of why they believe alternatives developed by EPA contractor are not practicable – and this would be in the DEIS.

I'm surprised this document wasn't mentioned at Tuesday morning's meeting by Region 3 – did I miss something?

We will probably need to revise our comments to address this new document.

On another front, Randy and I talked earlier today and he thinks it make sense to shoot for Monday as a date for submitting comments to FHWA/CORPS – I agree, especially in light of this new document.

If you want to talk later today, let me know. I'm available.

This is the only response we have received on our submissions from FHWA WV.

I am working on time line

Jessica,

As discussed the SDEIS for the King Coal Highway and Buffalo Mountain Surface Mine is coming together and we hope to get it finalized and published soon. The comments provided by EPA on the individual chapters have been helpful in preparing the document. For you your information attached is the revised section of Chapter 3 discussing the alternative information provided by EPA that will now be included in the SDEIS.

Thanks

Jason
